

# SIZE GUIDE

## BEFORE YOU START

Please ensure this page is printed at 100% on A4 paper and scaling is set to none or the tick box is unchecked.

If you want to double check, use a ruler to measure our ruler. It should be 20cm long!

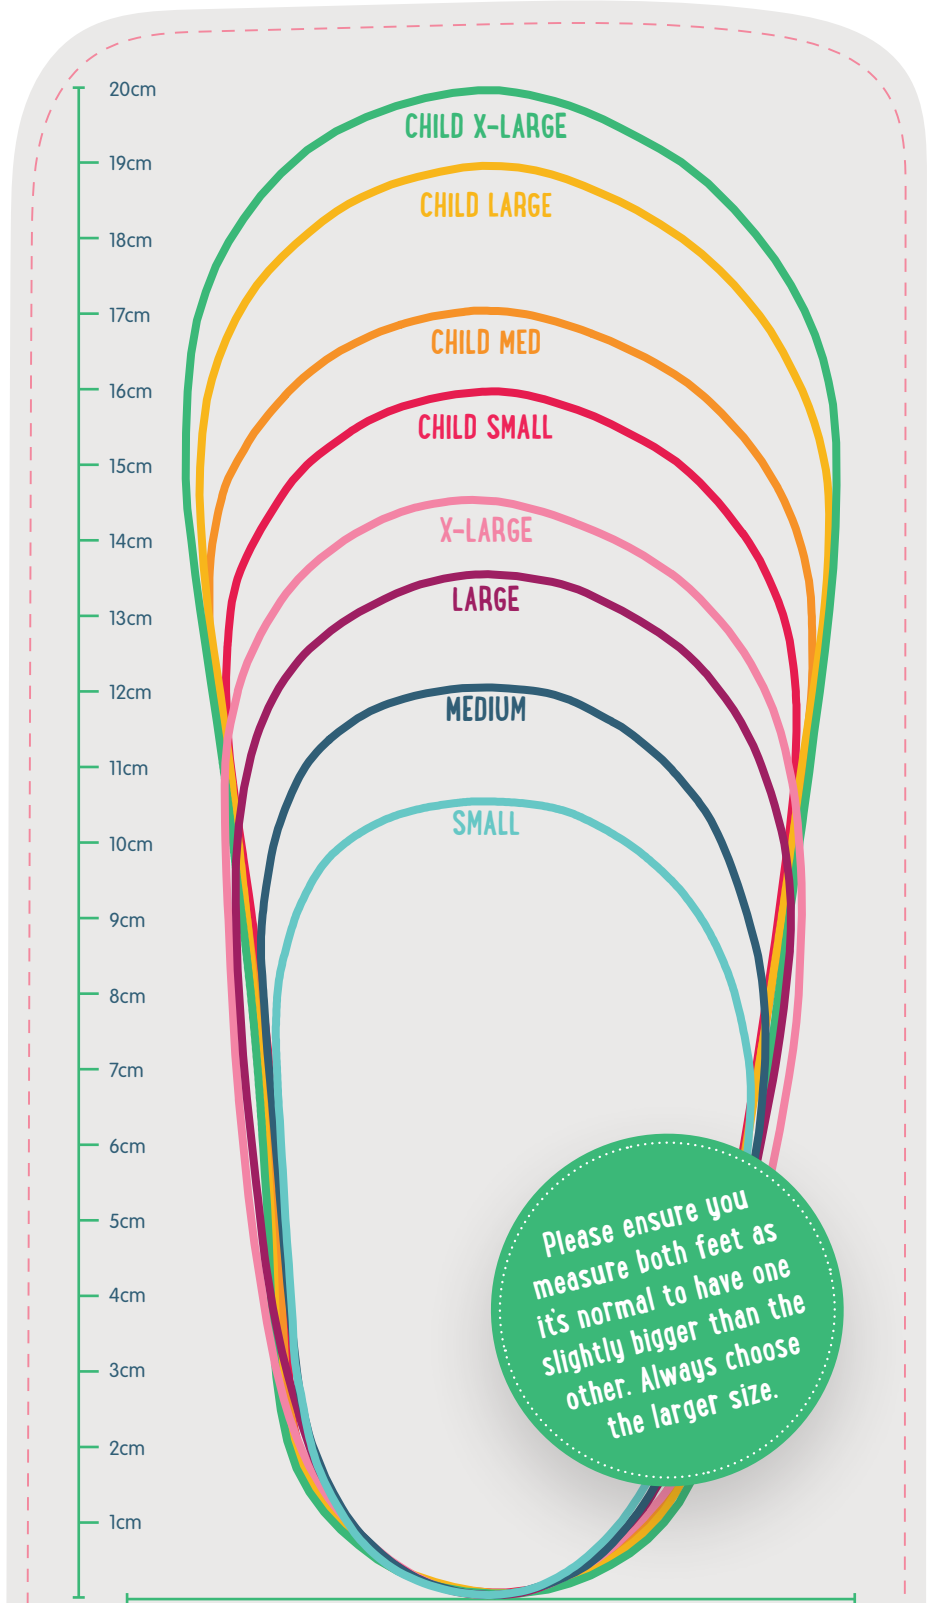

## LET'S GET STARTED

It's as easy as 1,2,3...

-  Place the printed guide on a hard surface.
-  Position your child's heel on the line, making sure they are standing up straight and have both feet flat on the ground.
-  Find your child's size by identifying the the first line past the longest toe.

Love your baby's feet...

Please ensure you measure both feet as it's normal to have one slightly bigger than the other. Always choose the larger size.
